# ACUTE WOUND CARE/ FIRST AID + ADVANCED WOUND CARE PRODUCTS

Q3 / 2022 UPDATE

**OUR MISSION** is to improve the clinician and patient experience by providing high quality acute and advanced adhesive wound care products with skin injury prevention solutions.

**OUR VISION** for the lives we touch is to have a compassionate experience with a painless and trauma-free adhesive use and which is easily implemented everywhere care is provided.

Comfort Release® offers a range of **ACUTE WOUND CARE / FIRST AID** and **ADVANCED WOUND CARE** products using the first “switchable” adhesive technology. Our products protect patients from skin pain and skin injuries that commonly occur during adhesive bandage, tape and dressing removal.

#### **THE FIRST “SWITCHABLE” ACRYLIC ADHESIVE**

Comfort Release® dressings are made with a medical grade acrylic adhesive combined with a patented polymer that acts as an adhesive switch. Use cotton balls or alcohol prep pads to apply rubbing alcohol to the dressing border or tape until it removes painlessly and trauma-free.

Rubbing alcohol turns “OFF” the adhesive bond.

Allow the alcohol to evaporate, and the adhesive bond turns back “ON”, and the dressing can be placed back down on the skin.

We call it the **‘LIFT AND LOOK’ INNOVATION.**

Comfort Release® products are perfect for people with sensitive skin, including geriatric and pediatric patients, those with medical problems that compromise the immune system (diabetes, cancer, and transplant patients) and those on medications that compromise the skin integrity (blood thinners, steroids, and biologics). These products are also appreciated by anyone that simply hates the pain of ripping off bandages and dressings and hates adhesive residue left on the skin.

## **ACUTE WOUND CARE - FIRST AID**

### **COMFORT RELEASE® ADHESIVE BANDAGES & TAPES**

*For sensitive skin, easy to apply, water resistant, breathable, long lasting, with painless release. Bandages are made with a nonwoven film and tapes are made with a transparent, bidirectional tear polypropylene film – both with a strong acrylic (latex free) adhesive.*

GB101	1” x 3” Bandage - Single Box w/20 Bandages & 20 alcohol prep pads (20 boxes per case)
GB101-02	1” x 3” Bandage - Single Box w/100 Bandages (12 boxes per case) - NO alcohol prep pads included
GB102	2” x 4” Bandage - Single Box w/10 Bandages & 20 alcohol prep pads (20 boxes per case)
GB102-02	2” x 4” Bandage - Single Box w/100 Bandages (10 boxes per case) - NO alcohol prep pads included
GB103	1” x 4 Yard Tape - Box of 12 Rolls (10 boxes per case) - NO alcohol prep pads included
GB104	2” x 4 Yard Tape - Box of 6 Rolls (10 boxes per case) - NO alcohol prep pads included
GB105-02	1” x 10’ Tape - Single Blister Pack (50 units per case) - NO alcohol prep pads included
GB107	1” x 3.3’ Single Use Single Patient Tape - Box of 125 Rolls (8 boxes per case) - NO alcohol prep pads included
GB107-01	1” x 3.3’ Single Use Single Patient Tape - Single Box of 125 Rolls - NO alcohol prep pads included
GB107-05	1” x 3.3’ Single Use Single Patient Tape - Single Box of 25 Rolls - NO alcohol prep pads included

## ADVANCED WOUND CARE

### COMFORT RELEASE® ADHESIVE TRANSPARENT DRESSINGS

The center transparent windows are made of thin polyurethane material with a low level of adhesion, are waterproof and highly breathable for better wound healing and skin health. The border areas are made of a nonwoven film with a strong acrylic adhesive with our triggered easy release. Made in USA.

GB110	2.375" x 2.75" Transparent Dressing - Box of 10 Dressings & 20 alcohol prep pads (20 boxes per case)
GB110-05	2.375" x 2.75" Transparent Dressing - Box of 3 Dressings & 6 alcohol prep pads (20 boxes per case)
GB112	4" x 4.75" Transparent Dressing - Box of 10 Dressings & 20 alcohol prep pads (20 boxes per case)
GB112-05	4" x 4.75" Transparent Dressing - Box of 3 Dressings & 6 alcohol prep pads (20 boxes per case)
GB113	4.5" x 8.5" Transparent Dressing - Box of 5 Dressings (20 boxes per case) - NO alcohol prep pads included

### COMFORT RELEASE® BORDER ADHESIVE FOAM DRESSINGS

Hydrophilic foam pad is made of soft foam, which is comfortable, conformable and highly absorbent. It is breathable and capable of expanding up to 50% when fully saturated. Made in USA.

GB115	4.25" x 4.25" Border Foam Dressing - Box of 10 Dressings & 20 alcohol prep pads (20 boxes per case)
GB115-05	4.25" x 4.25" Border Foam Dressing - Box of 3 Dressings & 6 alcohol prep pads (20 boxes per case)
GB115-01	4.25" x 4.25" Border Foam Dressing - Box of 10 Dressings (20 boxes per case) - NO alcohol prep pads included
GB116	8" x 8" Border Sacral Foam Dressing - Box of 5 Dressings (15 boxes per case) - NO alcohol prep pads included
GB117	6" x 6" Border Foam Dressing - Box of 5 Single Dressings (15 boxes per case) - NO alcohol prep pads included <b>Expected Release: Q1 2023</b>

## WOUND CARE THERAPEUTICS

### COMFORT RELEASE® SILVER FOAM DRESSING PADS

The silver foam dressing includes polyurethane foam, polyvinyl alcohol, silver sulfate and silver chloride. It is a highly absorbent foam dressing with 0.35~0.40mg/cm<sup>3</sup> ionic silver as the active component. The dressing combines an optimal moist wound healing environment, with antibacterial effects and exudate management.

The dressing has broad spectrum antibacterial effect for Gram positive and Gram negative bacteria. It has been shown to have 4 log bacterial reduction up to 7 days in vitro against the following bacteria: *Staphylococcus aureus*, *Streptococcus pyogenes*, *Enterococcus faecalis*, *Escherichia coli*, *Klebsiella pneumoniae*, and *Pseudomonas aeruginosa*.

GB112-F4	4" x 4" Silver Foam Nonadhesive Pads - Box of 5 & 4" x 4.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads
GB113-F4	4" x 4" Silver Foam Nonadhesive Pads - Box of 5 & 4.5" x 8.5" Transparent Dressings - Box of 5 - NO alcohol prep pads included

### COMFORT RELEASE® SILVER ALGINATE DRESSING PADS

The silver alginate dressing is a sterile, single-use dressing pad composed of calcium alginate and silver particles, which absorbs wound exudate and release silver ions in the dressing. As wound exudate is absorbed, the alginate forms a gel, which assists in maintaining a moist environment to help wound healing. Total maximum

amount of silver particle is 0.14mg/cm. The silver alginate dressing has broad spectrum antibacterial effects. The silver particles protect from a broad spectrum of bacteria up to seven days.

GB102-S2	2" x 2" Silver Alginate Nonadhesive Pads - Box of 5 & 2" x 4" Bandages - Box of 10 & 20 alcohol prep pads
GB110-S2	2" x 2" Silver Alginate Nonadhesive Pads - Box of 5 & 2.375" x 2.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads
GB112-S2	2" x 2" Silver Alginate Nonadhesive Pads - Box of 5 & 4" x 4.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads

GB112-S4 4" x 4" Silver Alginate Nonadhesive Pads - Box of 5 & 4" x 4.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads

---

GB113-S5 4" x 4" Silver Alginate Nonadhesive Pads - Box of 5 & 4.5" x 8.5" Transparent Dressing - Box of 5 - NO alcohol prep pads included

---

## COMFORT RELEASE® MEDICAL HYDROGEL DRESSING PADS

*Hydrogel Dressings are designed to keep the wound moist and absorb excess wound exudate to maintain a balanced healing environment. The product is semi-transparent, it will not stick to the wound, and it does not leave residue on the wound.*

GB110-H2 2" x 2" Hydrogel Nonadhesive Pads - Box of 5 & 2.375" x 2.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads

---

GB112-H2 2" x 2" Hydrogel Nonadhesive Pads - Box of 5 & 4" x 4.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads

---

GB112-H4 4" x 4" Hydrogel Nonadhesive Pads - Box of 5 & 4" x 4.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads

---

GB113-H5 4" x 4" Hydrogel Nonadhesive Pads - Box of 5 & 4.5" x 8.5" Transparent Dressings - Box of 5 - NO alcohol prep pads included

---

*Use your phone's camera to scan the QR code and watch a video of the removal process.*

## SKINTACT® ECG ELECTRODE PADS

*Made with a nonwoven polyurethane film border, water resistant, breathable, long lasting with painless, trauma-free removal. Lifts off without pulling hair. Made for cardiac monitoring and diagnostic procedures. Anyone with sensitive skin.*  
**Expected Release: October 2022**

GB135 2" diameter, round, dry gel with Comfort Release® surrounding border - Pouch of 30

---

GB135-01 2" diameter, round, dry gel with Comfort Release® surrounding border - Box of 1,500

---

GB135-02 2" diameter, round, dry gel with Comfort Release® surrounding border - Case of 6,000

---

## MANUKAMED® DRESSING PADS

*What is ManukaMed medical grade honey? Leptospermum honey acts through osmosis and it is thought that its low pH (3.5–4.5) helps modulate the pH of the wound, contributing to an acidic environment conducive to wound healing. ManukaMed medical grade honey has methylglyoxal ("MG") as the leading*

*anti-microbial compound along with a number of phenolics that work in synergy with MG. The activity of ManukaMed medical grade honey can pull excess interstitial fluid from the wound and promotes autolytic debridement. ManukaMed medical grade honey is available in several forms for your specific wound application.*

GB102-L2 2" x 2" ManukaHD Super Lite Nonadhesive Pads - Box 10 & 2" x 4" Bandages - Box of 10 & 20 alcohol prep pads

---

GB110-L2 2" x 2" ManukaHD Super Lite Nonadhesive Pads - Box of 10 & 2.375" x 2.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads

---

GB112-L2 2" x 2" ManukaHD Super Lite Nonadhesive Pads - Box 10 & 4" x 4.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads

---

GB112-L4 4" x 5" ManukaHD Super Lite Nonadhesive Pads - Box of 10 & 4" x 4.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads

---

GB112-F2 2" x 2" Manuka MEDSAF Nonadhesive Pads - Box of 10 & 4" x 4.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads

GB113-L5 4" x 5" ManukaHD Super Lite Nonadhesive Pads - Box of 10 & 4.5" x 8.5" Transparent Dressings - Box of 5 - NO alcohol prep pads included

## BIOPAD™ COLLAGEN DRESSING PADS

*BIOPAD™ is a primary dressing composed of 100% native equine Type I collagen that can accelerate the closure of hard-to-heal wounds. The dressing protects the wound bed from the outer environment, constituting a barrier against exogenous infective agents. It stimulates the formation of new*

*granulation tissue, the proliferation of fibroblasts, and the deposition of new collagen fibers and absorbs wound exudate and can control minor bleeding.*

GB112-C2 2" x 2" Collagen Nonadhesive Pads - Box of 3 & 4" x 4.75" Transparent Dressing - Box of 10 & 20 alcohol prep pads

GB112-C4 4" x 4" Collagen Nonadhesive Pad - Box of 1 & 4" x 4.75" Transparent Dressings - Box of 10 & 20 alcohol prep pads

GB113-C4 4" x 4" Collagen Nonadhesive Pad - Box of 1 & 4.5" x 8.5" Transparent Dressings - Box of 5 - NO alcohol prep pads included

## COMFORT RELEASE® DRAPES AND SEALING STRIPS

*Strong medical grade acrylic ensures a strong and effective seal while Comfort Release® switch allows the drape to be removed painlessly and trauma-free. The drape acts as a barrier to external contaminants and provides waterproof protection.*

**Expected Release: October 2022**

GB141-02 10.5" x 12" Drape - Bag of 2 Drapes

GB141-50 50 Bags of 2 Drapes / 100 Drapes

## ADDITIONAL SUPPLIES

### ALCOHOL PREP PADS & SWABSTICKS

*Saturated with 70% isopropyl alcohol, these latex-free, 2-ply nonwoven pads are ideal for use to trigger our easy release. The pads are also an antiseptic cleanser.*

861 Alcohol Prep Pads - Box of 100 Large Alcohol Prep Pads (10 boxes per case)

*70% isopropyl alcohol swabsticks. These latex-free, individually packaged swabsticks are ideal for use to trigger our easy, painless removal.*

887-1005 Alcohol Swap Sticks - Bag of 5 individually packaged antiseptic 4 inch alcohol swabsticks.

### TECH-MED® ALCOHOL DISPENSING BOTTLES

*Manufactured from high density polyethylene. Excellent for dispensing isopropyl alcohol and other cleaners and solvents. Bottles opaque color allows for fluid level visibility. Unique push down dispensing design prevents cross contamination by not allowing dispensed fluid to return to bottle. Locking cap prevents fluid from leaking out.*

4024 Alcohol Dispensing Bottle - Single 9oz Alcohol Dispensing Bottle (12 bottles per case)

### COTTON BALLS

*100% cotton, latex free, non-sterile, soft and uniform in size.*

802 Cotton Balls - Bag of 1000 Cotton Balls (2 bags per case)

### STING RELIEF PADS

*Saturated with 60% isopropyl alcohol plus 6% soothing benzocaine, these 2-ply nonwoven pads are ideal for use to trigger our easy release. The pads also provide temporary relief of pain and itching associated with minor burns, scrapes, and insect bites.*

856 Sting Relief Pads - Box of 200 Sting Relief Pads (20 boxes per case)

### STICKERS

GB-STK Roll of stickers to indicate the use of Comfort Release® Products. Made in USA. Provided FREE upon request.

## HOW TO APPLY AND REMOVE COMFORT RELEASE® PRODUCTS

We recommend that you apply to clean, dry skin and remove any lotion, creams, or soap residue to allow for strong skin bonding of the bandages, tapes, and dressings. If necessary, cleanse the skin with rubbing alcohol and allow it to dry before applying the adhesive product.

### COMFORT RELEASE® BANDAGES

To apply: Wash your hands. Cleanse the wound and the skin around the wound. *(See general instructions above.)* Peel the release paper on one side and apply that side to the skin, then peel off the second release paper and apply to the skin. To remove a dry bandage, swipe with cotton balls or prep pads soaked with rubbing/isopropyl alcohol. Use enough alcohol to wet the surface for easy release. We recommend that our bandages be replaced at least every three days.

### COMFORT RELEASE® TAPE

Wash your hands. Cleanse the skin where the tape will be applied. *(See general instructions above.)* Comfort Release® Tape is transparent and can be torn bidirectionally to be sized or cut into strips before applying. To remove, use alcohol prep pads or cotton balls soaked with rubbing/isopropyl alcohol and swipe back and forth across the outer surface to thoroughly saturate the tape. Wait several seconds until the tape starts to lift and removes easily from the skin.

### COMFORT RELEASE® DRESSINGS

To apply: Wash your hands. Cleanse the wound and the skin around the wound. *(See general instructions above.)* Peel the release paper on one side and apply that side to the skin, then peel off the second release paper and apply to the skin. Gently press down on the dressing, and the adhesive bond will quickly strengthen. The transparent dressing can be used as a securement device for catheters and IV tubing, or as a secondary dressing cover over a primary therapeutic pad. The absorbent border foam dressings are designed to treat moderate to heavy draining wounds. Both the transparent and border foam dressings are recommended to be replaced every three days but can be left in place for up to seven days.

To 'Lift and Look' at a wound or a primary dressing pad, using rubbing /isopropyl alcohol prep pads, swipe one side (or one-half) of the white border with enough alcohol to saturate for easy release. The Comfort Release® Transparent and Foam Dressings may be partially lifted to view a wound and any primary therapeutic dressing pad can be examined and/or replaced. Once completed, allow the rubbing alcohol to evaporate and place the Comfort Release® dressing back on the skin. It will re-adhere.

To Fully Remove: Swipe the entire dry white dressing border with alcohol prep pads or cotton balls soaked with rubbing/isopropyl alcohol. Swipe back and forth across the white dressing border until thoroughly saturated. Wait several seconds until the border starts to lift and the dressing removes easily from the skin.

Only apply the alcohol to the border of the dressings; the window of the transparent dressings and the foam pad of the border foam dressings do not require the application of alcohol for easy removal.

Dedicated to Patsy Carter-Rattigan — our #1 patient who graciously volunteered to test Comfort Release® samples during our development.

---

Global Biomedical is a fast-growing medical technology company with innovations in chemistry and biomaterials. The company has invested extensively in research and development to find innovative solutions to today's problems and to redefine existing markets.

We developed the Comfort Release® technology to help people of all ages who have experienced the discomfort or injury associated with the removal of bandages, medical tapes or dressings.

Comfort Release® is recommended by doctors and nurses, caregivers and other patients - particularly to pediatric, geriatric and any patient with sensitive skin.

To order **ACUTE WOUND CARE / FIRST AID** and **ADVANCED WOUND CARE** products with Comfort Release® technology, go to [comfortrelease.com](http://comfortrelease.com) or call **470.636.4410**.
